Create a project within a NetApp Kubernetes Service workspace

When you create Kubernetes user clusters, you select a workspace in the NetApp Kubernetes Service. You can create a project within that workspace and later add a solution to the project.

Steps

1. From [NetApp Cloud Central](#), select **Products** > **NetApp Kubernetes Service**.
2. Log in using your Cloud Central credentials.

3. Click **Organization**.

4. To add a team, to which you can later add to your workspace, click **Teams**, click **Add Team**, add a team name, select members, and click **Submit**.
5. To add a workspace, to which you can later add projects, click **Workspaces**, click **Add Workspace**, add a workspace name, select teams, and click **Submit**.

After you finish

Continue with [Adding applications to your Kubernetes cluster](#).
